Size	Price
8 x 10	\$25
11 x 14	\$55

“Cherry Pieces” card set. Various crops from “Traverse City Jubilee” . Six different images, \$12

Many other images available in 6 card sets for \$12 also

With the exception of the all-occasion cards, the prints above are high quality giclee prints. These images were professionally photographed and color matched. They are printed on premium acid free paper using archival quality inks and dyes. Those in a limited edition are signed and numbered and come with a certificate of authenticity. Please note: Some originals are still available as indicated.

Hand embellished prints are painted on after the printing process. Sometimes I choose to do this additional painting based on slight changes I'd like to make to the image and sometimes I do it to enhance coloring that is diminished because the print is larger than the original. The ends result is quite nice.

All images are also available as miniature giclees that fit a standard 5 x 7 mat which fits a standard 8 x 10 frame. These matted prints are not signed or numbered so the price of \$20 is quite affordable. "Winter Beech" does not fit a standard mat or frame because of its dimensions.

All prints and many other images are available in all-occasion card sets of 6 for \$12. See "Cherry Pieces" set at the end of this document. If you have an interest in a full list of cards, contact me.

I accept PayPal and approved checks. 6% Michigan sales tax is collected and shipping charges will be added at my cost, plus \$5.

If you would like to speak with me by phone, please email a request for my cell phone number.
